## NEW COMPUTER-BASED GENERAL CONTINGENCY COURSE

### SYNOPSIS:

We have completed a computer-based course of instruction covering general contingency topics. This program contains a lot of the same information that was previously contained in the 3E050 CDCs. The 3E050 CDCs were deactivated 25 Feb 00. For more guidance, there is official message traffic available through your MAJCOM. Also, a guidance letter comes with the CD.

In addition to numerous revisions, this new digitized version makes extensive use of narration, 11 supporting video clips and over 1,200 color drawings/photo-graphic enhancements. As indicated below, this electronic product will include all of the general contingency topics previously included in CDC 3E050 with appropriate updates to make it current.

### LESSON TOPICS:

1. Prime BEEF Orientation
2. First Aid
3. Field Sanitation, Personal Hygiene, and Pestborne Disease
4. Self-Protection from Extreme Weather
5. Personal and Work Party Security
6. Air Base Defense Interface
7. Convoy Techniques

8. Passive Defense Techniques
9. Resource Dispersal
10. Camouflage, Concealment, and Deception
11. Terrorism
12. Base Denial, Multiskilling and Auxiliary Firefighting
13. Explosive Ordnance Reconnaissance
14. Expedient Beddown
15. Rapid Runway Repair

As was the case with the paper-based CDC, satisfactory completion of this course also meets Category I Home Station training requirements outlined in AFI 10-210, Chapter 3. Each engineer unit, both active duty and air reserve component will be provided three copies of the program. If you have not received your copies by mid March, contact Mr. Gruber at DSN 523-6181, email: [Ralph.Gruber@afcesa.tyndall.af.mil](mailto:Ralph.Gruber@afcesa.tyndall.af.mil) to receive an issue and ensure that your organization is added to the distribution list for future products.
